

2010 PSYCHIC PREDICTIONS

BY Mz. Mugzzi

December 30, 2009

Many things that are happening within our government, schools, economy and individual's mentalities I find disturbing as a psychic. Now is the time for people to wake up before it's too late. Today, as I sit here pondering what to expect for the New Year; I'm a bit confused. We, as a Nation, can go one of two ways. One is of a period of awakening, spiritual growth, and higher consciousness living that is going to require some work on each other's part. The second option, which is very dire indeed, is the loss of our Constitution and God given rights.

If the masses increase their knowledge of what is "really" happening and get involved; then we can take our country back from the Satanist rulers. However, we have to act quickly. If not, then we have another Communism, Hitler style rule that is already programmed for their "new" dictators. If you are not researching your own conclusions and still allowing other people to think for you then welcome to the "**New World Order**". If there are any terms in this document that you do not understand, go look it up and educate yourself. This stuff has been going on under our noses for thousands of years. Wake UP America it is time to take your country back!

I first predicted the states would want to succeed from the Union back in April 2009 on my blog talk radio show. As you know, a week later Texas introduced its succession. Since then we now have about 34 states that have filed the paperwork to over throw the Federal Government which is owned and operated by the **Illuminati, Bilderburgs, Luciferians, Free Masons, and the "Secret Society"** that JFK warned us about during his presidency. (All of these titles and groups can be found on www.YouTube.com, Google, internet in general, Tru TV, History Channel, and books.)

When the states succeed at succession then the army, navy, and military will return to the states in which they reside from and go under the direct command of the Governor of that state. These orders are laid out explicitly in our Constitution. The Federal Government will become paralyzed, so we think. The Elitist know this and have a plan so their next action will be for the Federal government to employ China to come into our country and enforce **Communism Rule or Marxism** which is in direct conflict with our Constitution. They will come in by ships on the New York, Florida, and California coast lines. We already have many **concentration camps** here in the United States. These are not to be used for any other reason but to capture American's that refuse to take the **mark of the beast**, Mark 10, and join their demonic Communism enforced rule.

Already in most states there is **Martial Law** written into the state laws. Already there are laws that are put into place to carry out this plan. There is also a new army to control the masses. All you need to do is to research it and get involved. The **genocide** atrocities that Hitler performed in Germany is legal in some states here in the United States. There is a list of them on Google and You Tube. I also see **chemicals being sprayed in the air** by airplanes that will make people sick. This is now being documented in agriculture reports and filmed by pilots and known as "**chem-trails**". There are

2010 PSYCHIC PREDICTIONS

chemicals being dumped into our water system by the Illuminati group. This is to subdue us, make us mentally slow, and ultimately sick. People are being poisoned at alarming rates so it's not safe to detox in the traditional manner. One has to be careful when detoxing because using a sweat lodge, fasting and other means can cause immediate death or shut down of vital organs. It is now being documented that about 40% to 45% of the population will not use Western medicine due to the dangers of using unknown chemical drugs. That is why I believe that the elites want to push the health care program through. One is for the control over people's lives and health, but also to insure the money that is generated from "ill" health.

This act alone, to push the health care plan through, will cause a revolution. Once and for all the American people, and other citizens around the world, will stand up and fight the 13 families that have been controlling our world since the times before Jesus. The "**money exchangers**", **The Federal Reserve**, will be brought down and when they do come down that means that we will have to reinvent the monetary system. We will resort back to gold and silver for a period of time until the "NEW" congress can implement a "**Constitutional Law**" **system of money**.

Citizens will start to flee the larger cities and return to a natural way of life. Home businesses, barter systems, and fundamentals that were implemented during the times of the depression will reenact itself for survival. Herbal medicine will be the healthy and natural means for health care and the institutions that employ these services will do well in the years to come. Home baked goods, home sewn clothes, and being "off the system" is the WAY OF THE FUTURE! This includes not having any debt, and owing no one anything, will be considered the true freedom.

The populace that wants to stay a slave to the elites will be subjected to a terrible, evil, and a depressing way of life. They will have to work to pay off debt the government creates and totally be submissive to the elites. After the age of about 38 people will be regarded as non-useful and terminated. People will be drugged to stay passive and **mind controlled** by this group until they are determined obsolete. Our children will be bred into slavery and we will have no more control over what they learn, how they act, or teaching of historical cultures. The **New World Order** wants to create a population that works for them, has no rights, and completely bound to slavery.

Within the next 3 to 5 years the Illuminati wants to **crash our American dollar** to go to a "**one**" **world system** so they can control it all easily. The **Rockefellers** are behind this along with another **12 family** in conjunction with the **300 families** that are helping them and dedicated to their devious plots. The reason why they can wait 1000's of years to implement their plan is because they are not themselves and possessed by demons. Don't believe me? Look it up and check out **Sasha Fierce** who proclaims it's her alter ego however, the music video that she does actually shows her giving her soul to the devil. Watch for the **satanic hand signs, handshakes, and logos pinpointing loyalty**. The people that belong to this despicable group tell on themselves by saluting one another with their specific hand signs. What is it? Go look it up for yourself and then teach everyone you know about it.

To make this clear it is now documented that our water ways, air ways, foods we eat, medicine we have been using, television programming, movies, music, some religions, theme parks, grocery stores,

2010 PSYCHIC PREDICTIONS

financial industry, banks, auto dealerships, gas stations, schools, leaders, politicians, movie stars, doctors, lawyers, policemen, senators, and much more; are all part of the demise of the "America" as we know it. Individuals that serve Lucifer are trying to take down our constitution and worse yet, take away your God given abilities so that they can rule the world.

What can we do to protect ourselves from this and maybe even stop this from happening? One thing is to read as much as you can on the internet. Many countries and individuals are telling their stories and you can read for yourself what is happening. At some point the Illuminati wants to shut down the internet so get your info while you can. Another thing you can do is to join gun clubs like the NRA, learn how to shoot, make your own ammo, and stockpile your food source. It could be anywhere from 3 months to 1 year before we can battle these bad guys out of our government. Get prepared and have a plan.

Another thing you can do is to learn about herbology for yourself. We will not have medicine, nor do you want it if you can, so learn what heals and keep a good supply on hand for you and your family. You should also be learning how to have solar energy, make your own water, and think about totally living without the system. It might not be available for a long time so get prepared with that aspect of your life.

For a monetary system I have been told that silver is the way to go. You can use silver to build, medicinal properties and to barter with. Hence, collecting small amounts of silver bars now when you can get a good price is smart. Remember, our politicians are now trying to destroy the value of the dollar so it will be valued as nothing more than paper. Plus, keeping large amounts in the bank when the Illuminati own the banks and the computer systems that show how much money you have can be "zero" out at a push of a button. This is the same thing they did with the Jews back in Germany. Why do you think they had all the Jews killed? They left large amounts of money in the banks that were owned by the same money exchangers that we have integrated into the American system. Wake up!

In the next three months we will lose 3 more actors to drug overdose. This will begin the awakening period of the American people. They slowly will start to see that the ones they looked up to are now dying due to taking prescription drugs and will choose not to follow suit. We will see a lot of people, loved ones, friends and family start to develop either cancer, mental illness or other debilitating diseases this year and that too will wake people up about what they put in their mouths! The momentum to avoid chemicals will become clearer and a swifter movement away from the pharmaceutical industry will be prevalent. Then the Health Care, Illuminati plan, will be set into motion. This will cause a chain of events which includes riots, upheaval, and ultimately a revolution.

The smart person will start to analyze how their states view the subject of "New World Government" and see if your state officials are part of an elite secret society. If they do, then you will have to move to be safe from the mark of the beast. Get your gun, save your food, buy your silver, and learn more about the 13 families that are ruling this world and what they intend to do with the population. They want to decrease the population and I'm seeing this by hardening the internal organs of the body so they will gradually stop functioning. This will be achieved through vaccines!

2010 PSYCHIC PREDICTIONS

Learn where their underground cities are, and learn where the mind control centers are. You will not want to bury your head in the sand any longer as to what is going on around us. Death to people we love, and death to the life style we are proud of, and death to our freedom is on the brink of extinction.

Learning how to read Auras and seeing the darkness in people can save you. Learn how to make your body pure and decontaminated from toxins can help save you. Educating yourself as to what is coming and how to step around it can save you. Do not be a couch potato and have complacency for your future. You will have to be responsible for you and the ones around you. The more we know the more we can thwart this evil plan. Know the truth and open your eyes to what is being forced down our throats by the media, history books, and politicians. The reality they have created is not a truthful one and it's a dangerous one. Wake up and get involved. Be proactive in protecting your civil liberties, your Constitutional rights, and your spiritual power given to you by the highest and most loving God of all. Do not be afraid for you two have God's power to make things right again.

Now you are sitting there saying to yourself, "Why haven't I seen any of this on the news?" "This can't be true or I would have heard about it already". The Bilderburgs (Illuminati) own the media and the reporters! Wake UP!!! They are killing people for getting information to the masses. However, if we all stand up and start talking about this in the supermarkets, gas stations, work place, post office and other gatherings; then we can fight back. We need to awaken and set the boundaries for a Constitutional Land that will protect and serve the people that live here.

Prove me wrong but if I'm right? All I can say is "I told you so!" .

For more information on these subjects visit www.psychichealth.com . I would dream about this stuff and then go research it. As I found that there was important data for the subject matter I put it on this website so people could find all the materials quickly and easily. Protect yourself and equipped yourself with the knowledge that is being given to us.

We all have the power within us to make things right but we need to do it together. We cannot lose as a group of strong loving Christians. It's been written in the miracle document we know as the bible.

Prophecy for the months to come:

January:

People should start to see the interest rates on their credit cards go way up. If you have a decent balance on your cards you will see a higher interest rate before the February deadline.

There is going to be an influx of foreclosures nearing the end of this month. This should be a rather large amount of homes that hit the market.

More major companies closing and joblessness rises to a all time high.

More people returning to school to learn home based businesses.

2010 PSYCHIC PREDICTIONS

February:

More houses are hitting the foreclosure list at the beginning of this month. Banks will be forced to release inventory in order to avoid property taxes that will be owed.

Crime rates across the nation will start to escalate. Street demonstration, picketing, and frustrated individuals making it clear of their dissention with the Ludicrous spending and unconstitutional behavioral of the Federal Government; will begin.

Federal government is going to push the health care plan down our throats and people are starting to get very agitated. I get a "kaboom" type of effect with what congress is trying to push upon us and take away more of our Constitutional Rights!

April:

Housing still entering the foreclosure list and another wave should start to take action.

Schools getting persuaded by the Federal Government on curriculum changes and more policing of what is being taught in school. A push to take away our rights to home schooling is on its way so the government can take control over what your kids are learning in school.

May:

The economy will start to show signs of a "false" improvement. Don't be fooled the other shoe is dropping at the end of the summer.

July/August/September:

Economy is starting to decline. Will happen quickly due to people now starting to wise up to debt, scams, and victimization of "no regulations" from departments that are supposed to be protecting us from harm.

More tea party gatherings and movement starts to grow stronger and more powerful. Other parties will start to appear that represent the Constitution and Patriots of this country. The divide between destruction and protection of this company and who plays on what team will become evident. The "Plan" will be known by most of the people in this country and trusting will be eroded by the people on top.

Stock market becomes shaky and unpredictable.

Watch for overdoses during this time with our celebrities who can't pay their bills and have too much pressure on them and no way to resolve their issues.

California/Florida/New York:

2010 PSYCHIC PREDICTIONS

Wanting to slow down the migration out of their state; they will start to implement fees to leave the state! You will see this with fees of closing out utilities, DMV, release of records, and companies wanting out. I'm also seeing New York and Florida wanting to do the same thing.

There will be a large increase in shutting down businesses associated with Illuminati run states due to little to no protection from biased laws and over taxation. These same businesses will start up in a "healthy" state that promotes and protects the rights of individuals and businesses. There are a few of them but I really see Nevada, Arizona, and Texas to name a few. Gross negligence on suing companies to make the lawyers rich will be deemed unacceptable and unethical. Frivolous lawsuits will be punished and lawyers will become more accountable for legitimate violations and rewarded to strive for ethical standards. It will be easy to determine who these "good" states are by the laws they practice and the mentality of the officials. Crimes will be lower and there will be less tension because the people will trust and feel safer in their communities.

As people start to migrate to "safer" states they will also be looking for "honest" health care, alternative medicine, improved school systems with options for home schooling, affordable housing, work options, lower cost of living, and "going green" alternatives. The states that are greedy, illegally punishing of laws, high crime rates, bad school performance, and high cost of Medicare, high utilities, and gradual increases on taxation will drive families out of their homes and not look back!

In states, like California, I see the population being divided between the "police state" and the gang members. Everyone in between will want to leave because of feelings of being trapped and stuck in the middle. Citizens of larger cities will become so worried for their safety they will want to just walk away from their homes and their "things" just so they can find peace in a state that enforces legitimate laws. Houses will continue to fall in value since people will no longer desire to live with these dreaded conditions. House squatting will become a greater concern and homes that are vacant will be used for making drugs.

Further, Police departments will be focusing on making money for their cities so beware of an abundance of tickets and fines that will help generate revenue. This will cause a chain reaction of the people that are law abiding citizens wanting to flee so they are not victimized and gang members becoming irate due to the corrupt enforcement of state laws. (Not all police stations but a lot)

Internet laws are not enforced in a lot of states and you are allowed to be victimized with identity theft. This is for two reasons. The first reason is because it is a money maker for the businesses that want to protect you and those debiting your personal accounts. Second, and the biggest reason, is so the government can take away more of your rights with the impression of keeping you safe.

Homicides will be classified as "missing persons" because the limits of man hours for crimes become severely cut back. Police stations will take a serious hit on personnel which will make it almost impossible to keep up with the crimes that are committed. Falsified police statistics will help to hide the growing crime rates in larger cities.
